

ADVANCE AND FUTURE PERSPECTIVES IN DRUG COATED BALLOONS FOR CORONARY ARTERY DISEASE

PROGRAM

DATE: 12/04/2025

 LOCATION: INCOR AUDITORIUM

Educational Support

08:00 – 08:10 – Opening Remarks

Moderator: Prof^o Dr. Henrique Ribeiro

08:10 – 08:30 – Current Landscape and Future Directions for DCB Therapy

– Prof. Alexandre Abizaid

08:30 – 08:50 – Clinical Evidence Supporting DCB Use

Prof. Patrick W. Serruys

Moderator: Dr. Alexandre Soeiro

08:50 – 09:10 – Pharmacological Mechanisms of Drug-Coated Balloons

Dr. Antônio Fernando

09:10 – 09:30 – Types of DCBs and Comparative Studies: Is There a Class Effect?

Dr. Pedro Melo

09:30 – 09:50 – DCBs in In-Stent Restenosis

Dr. Roger Godinho

09:50 – 10:10 – Panel Discussion

10:10 – 10:30 – Morning Coffee Break

Moderator – Dra. Neusa

10:30 – 10:50 – DCBs for De Novo Lesions (Including ACS)

Dr. Bernardo Cortese (TBC)

10:50 – 11:10 – Lesion Preparation and Optimization for DCB: The Role of Intracoronary Imaging (Recoil Control, Dissection)

Prof. Dr. Hector Garcia

11:10 – 11:30 – Q&A / Discussion

12:00 – 13:00 – Lunch Break

Moderator – Dra. Luhanda

13:00 – 13:20 – DCB in challenging scenarios

Dr. Carlos Campos

13:20 – 13:40 – Optimizing Balloon Angioplasty: Tips and Tricks for DCB Use

Dr. Antonio Colombo

13:40 – 14:40 – Live Case Demonstration

14:40 – 15:00 – Discussion

15:00 – 15:30 – Closing Remarks and Future Perspectives

Dr. Roger, Dr. Carlos, Dr. Pedro, Dr. Antônio
